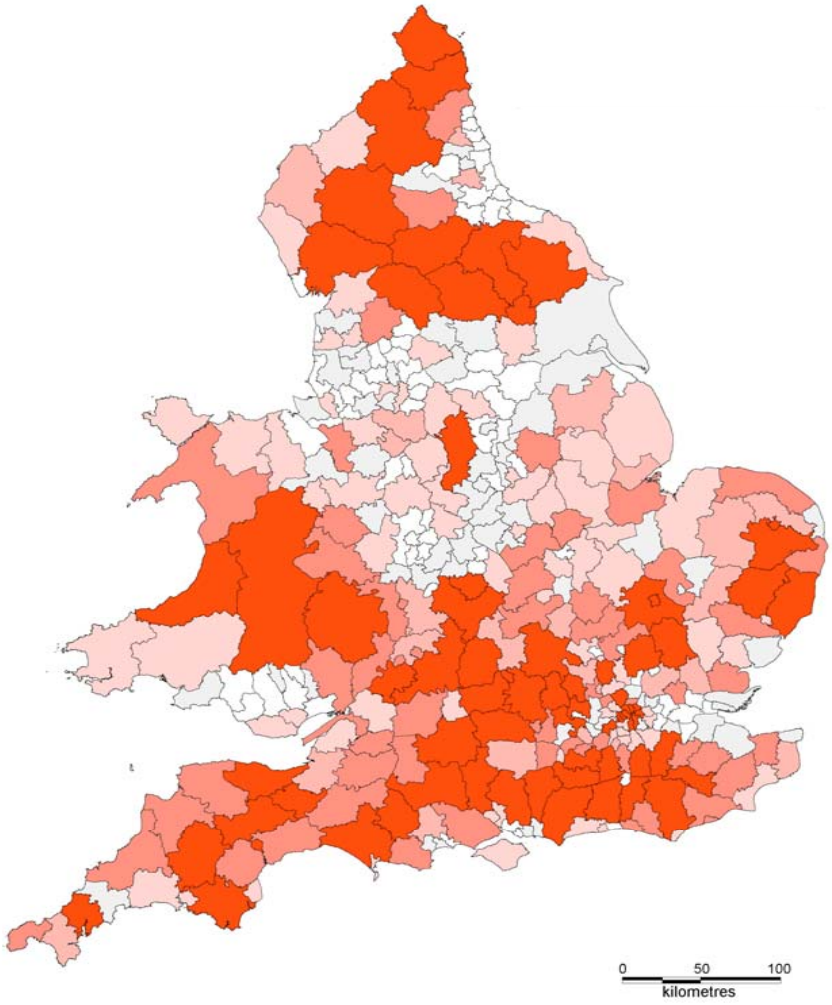
Charity deserts?

Density of charities to population for local authorities in England and Wales

CGAP
Centre for Charitable Giving and Philanthropy



No. of charities per 10000 population

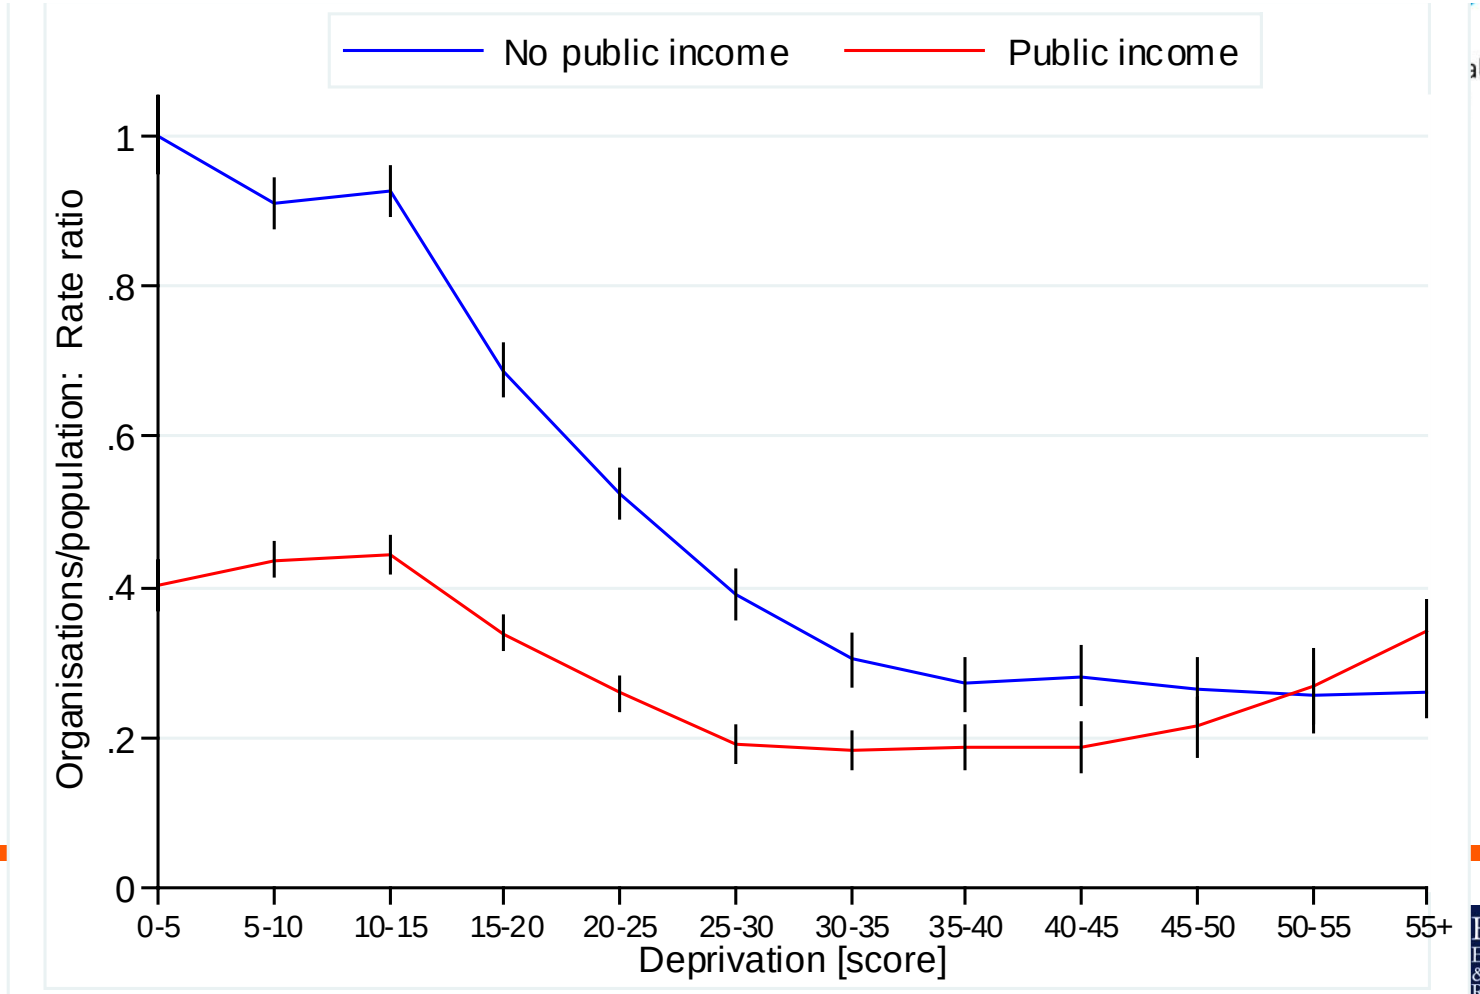
16 to 741	(75)
13 to 16	(60)
12 to 13	(25)
9 to 12	(74)
7 to 9	(65)
0 to 7	(79)

(excludes charities with an income of less than £10,000 and more than £2 million)

Hosted by:
UNI
BIR

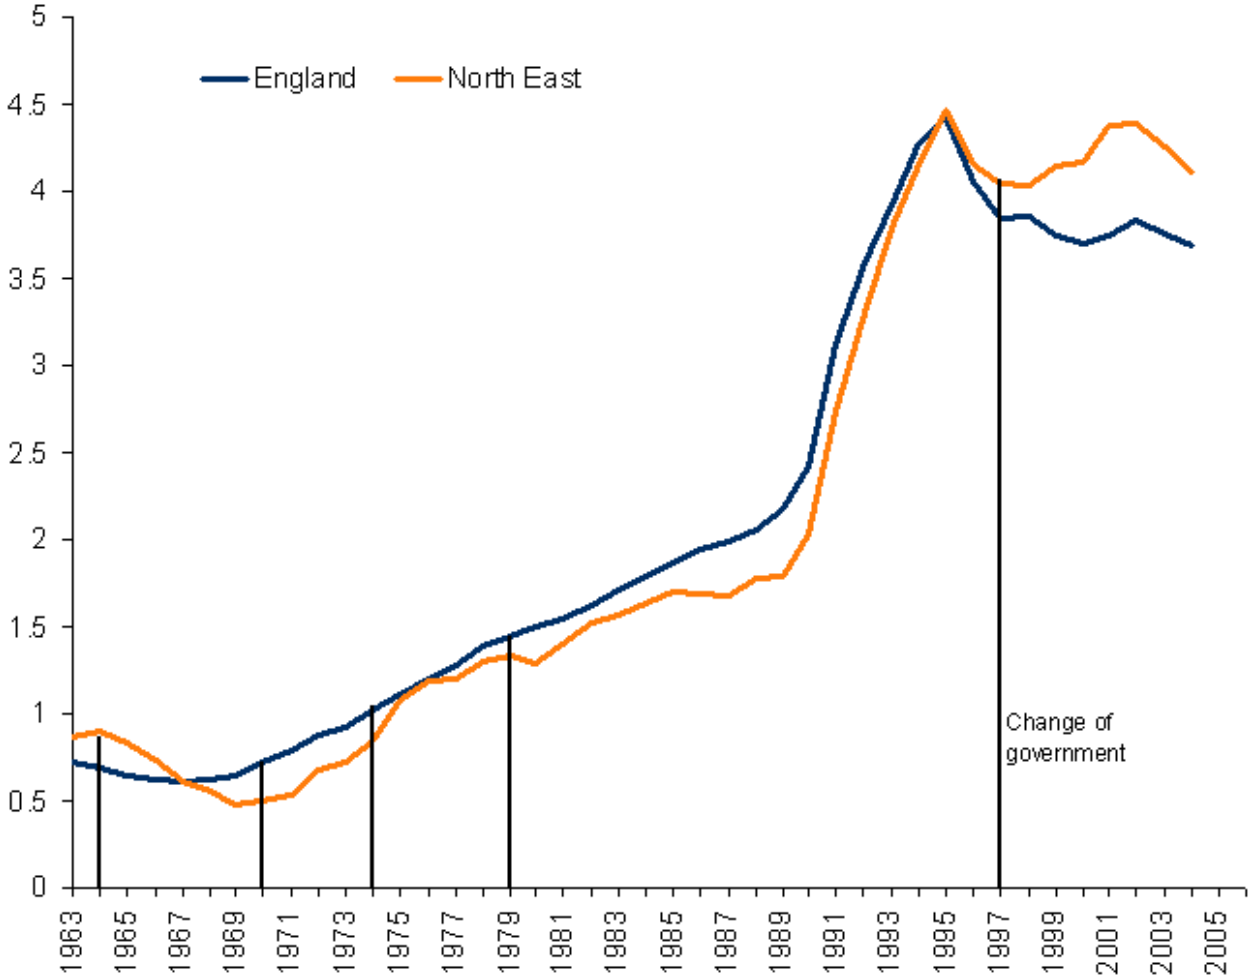
Local organisations

Prevalence of neighbourhood organisations by level of deprivation



Foundation of Charities

Charity foundations 1963-2006: percentage of charities founded, by year, England and NE compared



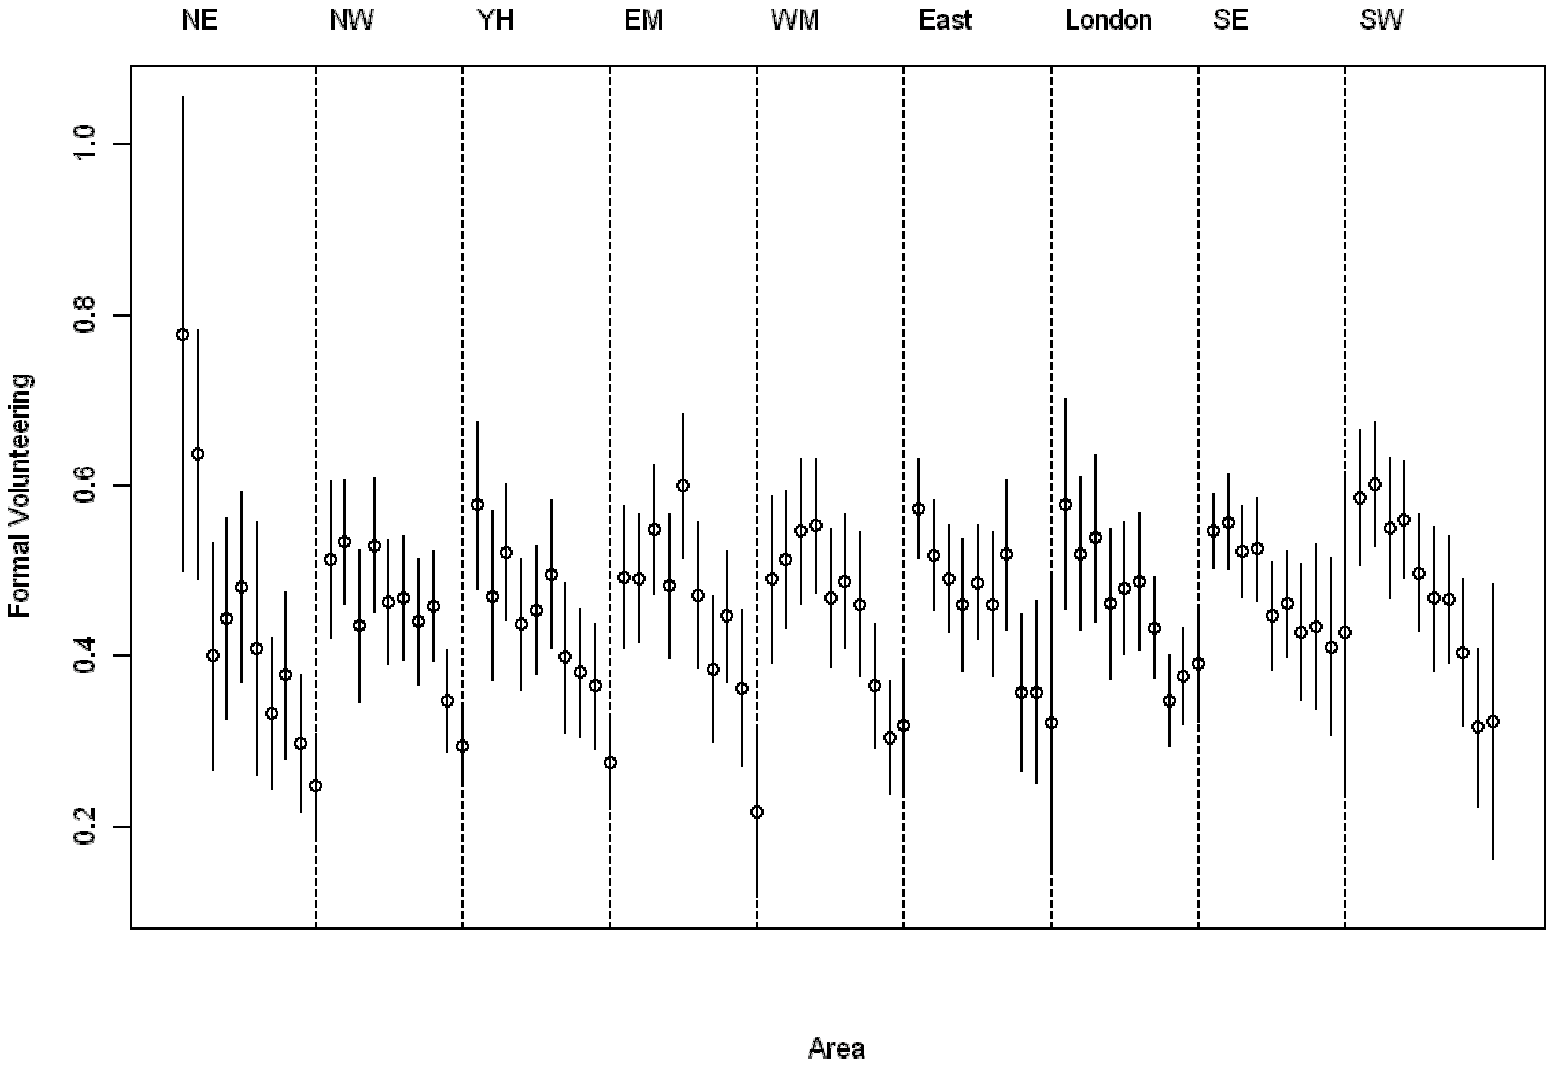
Volunteering

Trends and variations in volunteering rates

- Long-run stability in volunteering rates
- Difficulties of mapping at a local scale – lack of reliable local surveys
- Place Surveys – some LA – level indicators draw on under 100 respondents
- Regional variations – reflect composition not context
- Variations between places limited once we allow for the mix of people who live there
- More useful to focus on the mix of paid and unpaid work / help that people do / give, and the shares of it across social groups, than on headline rates

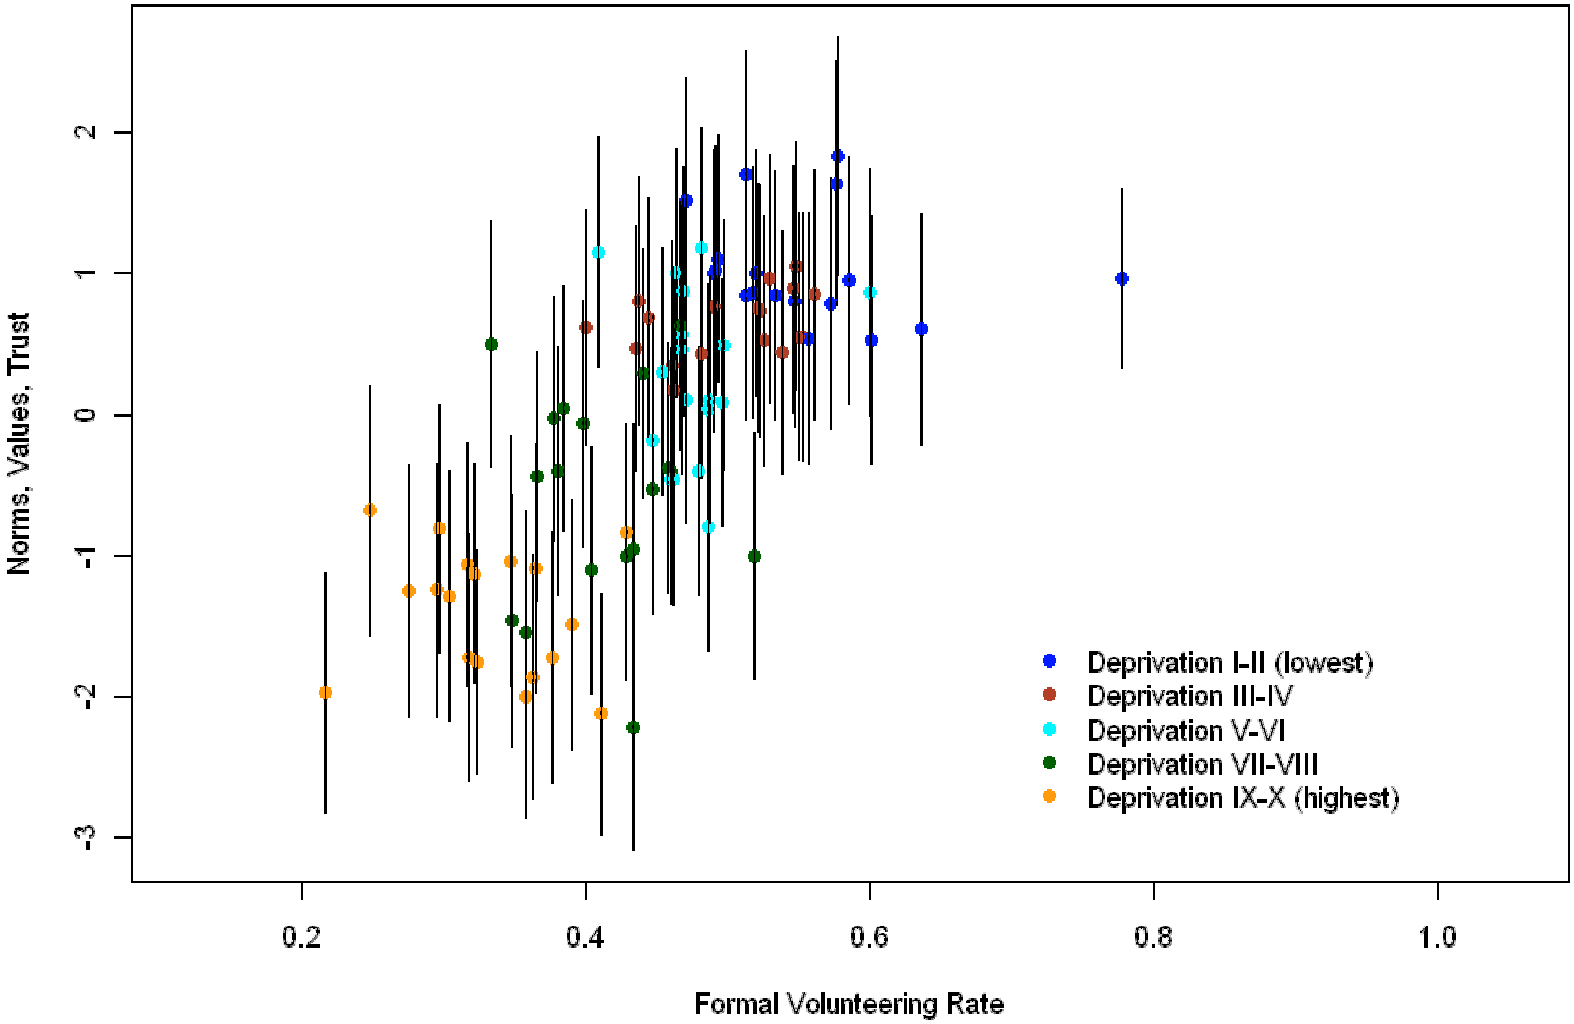
Volunteering

Area variation in volunteering rates: ranked by levels of deprivation



Volunteering

Volunteering rates and social capital by level of deprivation



Civic Core

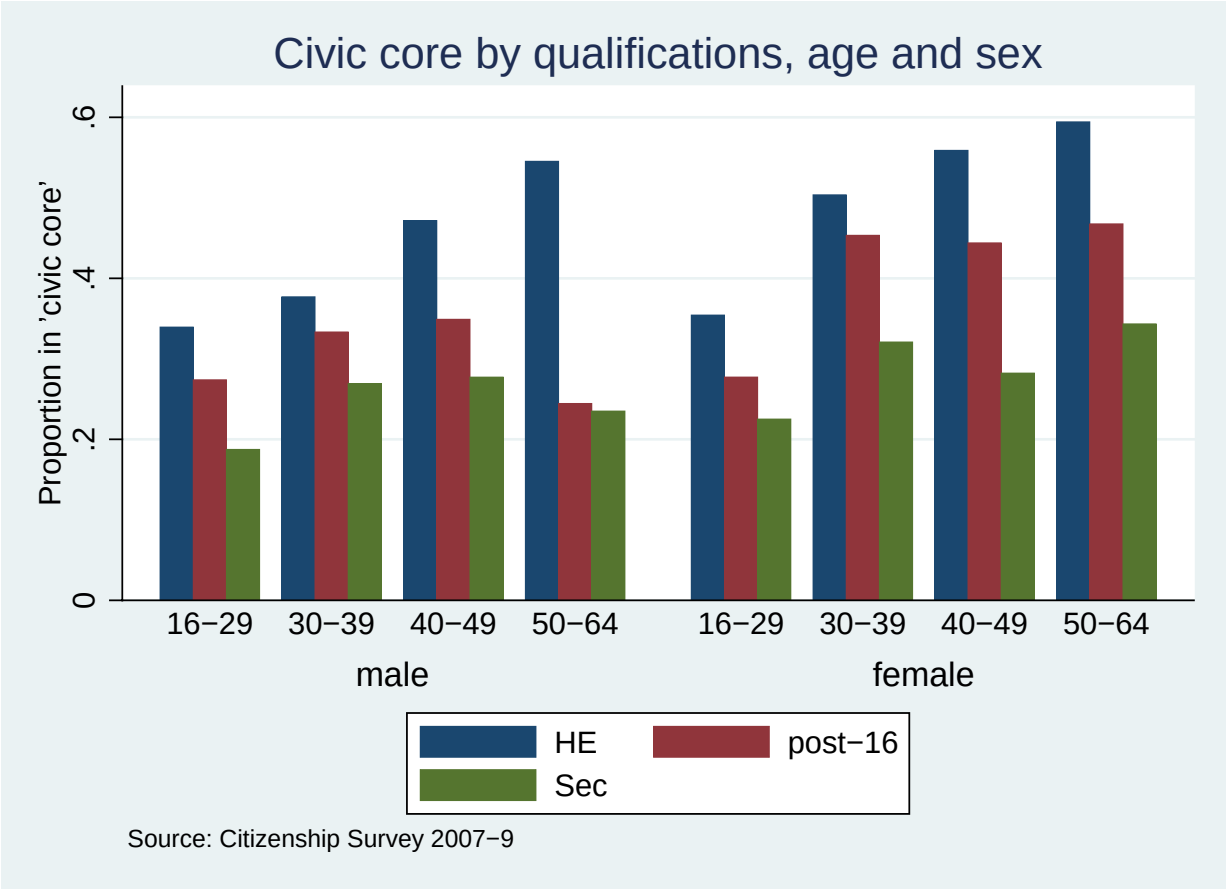
Civic core by qualifications, age and sex

CGAP
Centre for Charitable Giving and Philanthropy

Civic Core:

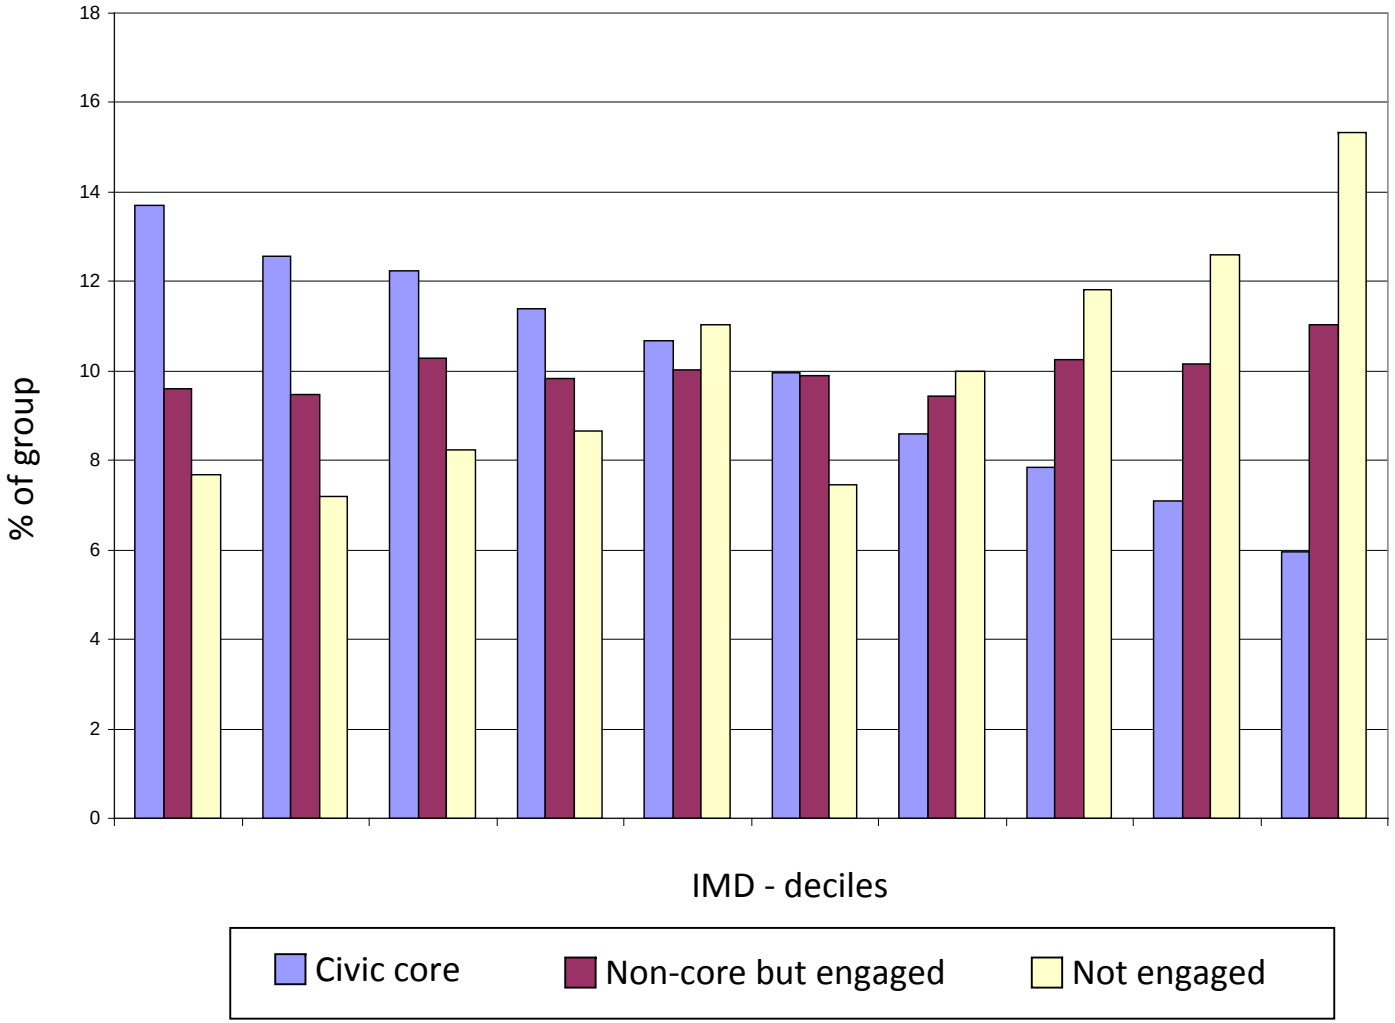
The subset of people who collectively provide over 2/3 of at least ONE of the following:

- Unpaid help
- Donations to charity
- Participation in a range of civic organisations
- (after Reed and Selbee, 2001)



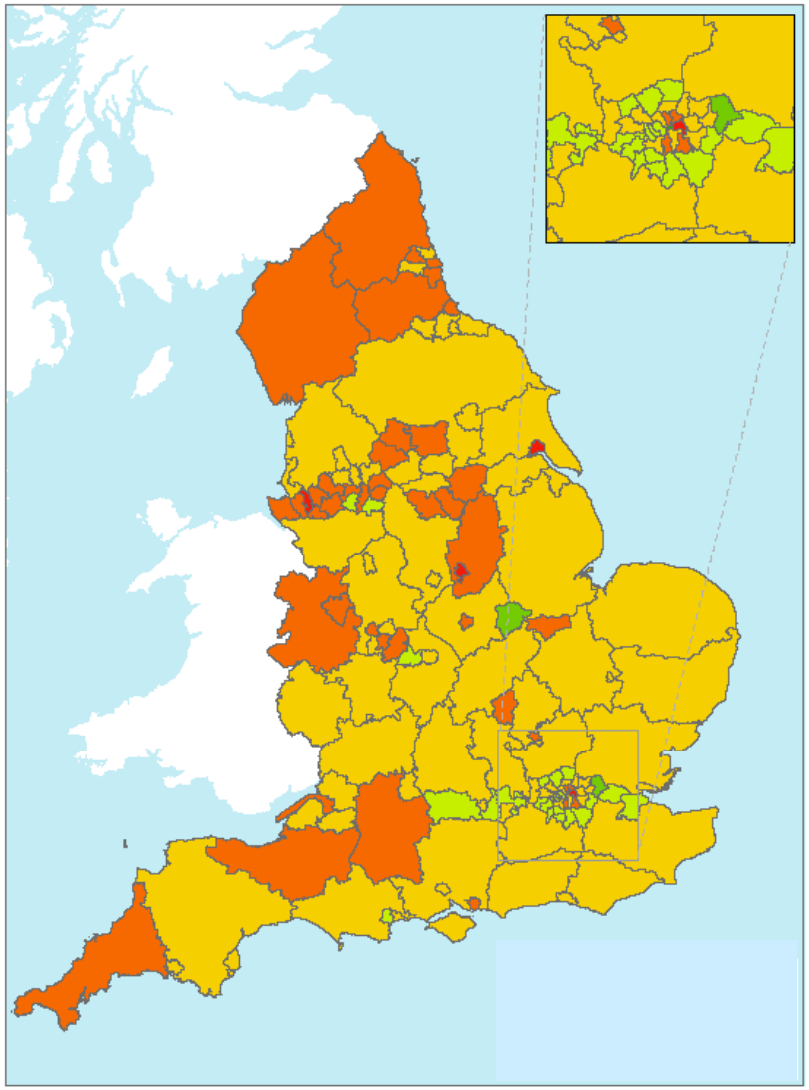
Civic Core

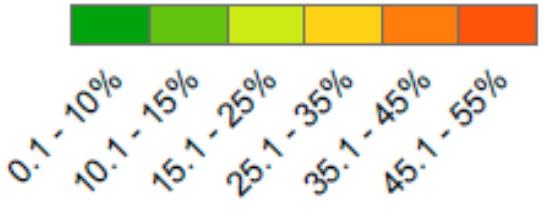
Distribution of core and non-core groups by IMD



Public Funding

Proportion of TSOs receiving public funding

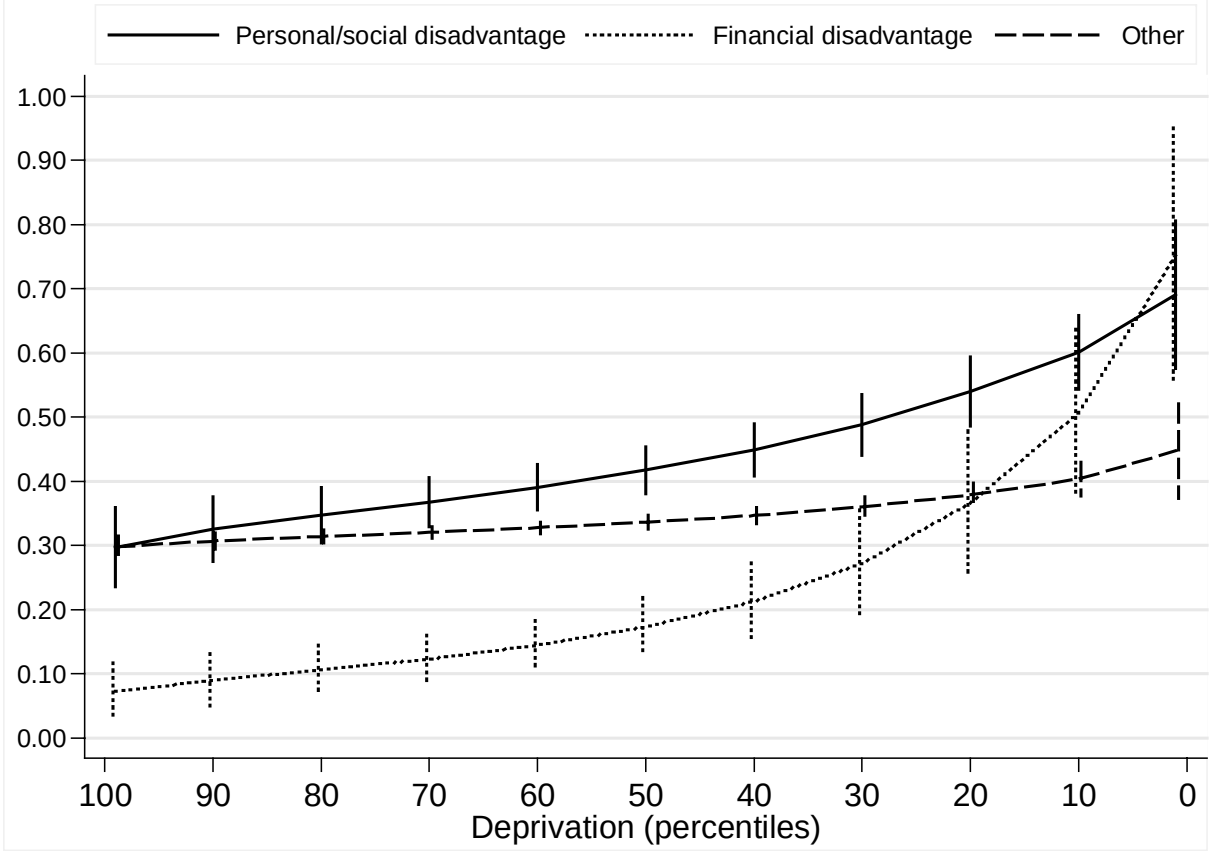




CGAP
Centre for Charitable Giving and Philanthropy

Public Funding

Probabilities of receiving public income for organisations working at the **neighbourhood level**, by beneficiary group and deprivation



Note: spikes represent 95% confidence intervals
