Doing social media analytics with Chorus
(Phillip Brooker, University of Bath)

http://chorusanalytics.co.uk/ - this is a link to the Chorus website, and on the front page there is a tutorial video embedded, which gives an overview of the features and functions of Chorus on a practical level.

http://bds.sagepub.com/content/3/2/2053951716658060 - this is a link to a paper we have recently had published in *Big Data & Society* which outlines the methodological principles afforded by Chorus (and connects them to tangible research questions via a series of case studies).

These two links will cover the material in my presentation.
